Microcom Corporation Selected to Supply Major Medical OEM with Thermal Print Engine

LEWIS CENTER, OH – July 20, 2010 - Microcom Corporation, a leading global provider of thermal printers, was selected to engineer and manufacture several key components for a major medical company.

“Our customer required an integrated printer for their new fluid bag labeling system. Unable to locate an off-the-shelf product to meet their needs, Microcom Corporation was tasked to design a custom solution based on our many years of print engine and mechanism experience. After working closely with the customer’s staff, Microcom was able to develop and produce the required product on time and under budget,” said Bob Young, National Account Manager for Microcom Corporation.

About Microcom Corporation

Microcom Corporation (www.microcomcorp.com) is a privately held leading manufacturer of specialty-use thermal label and ticket printers employed throughout the world. Microcom delivers innovative business management solutions for the transportation, healthcare, mail sorting, and specialty thermal printing industries.
